

Partnership in Purchasing

Redro

Tried and tested efficiency within purchasing

Centralise and control all expenditure and achieve budget control with a unique affordable web based system.

NEED TOO...

Reduce Costs, Manage Expenditure, Control Suppliers, Control Users...

...Have a limited budget and require efficiency within purchasing?

Redro, the most cost effective, easy to use, web based Central Purchasing System, to reduce and control expenditure and achieve budget controls.

The automated purchasing system with enhanced purchasing control that allows supplier monitoring, budget control, spend by volume with detailed reporting by individual supplier.

Redro provides customers with a complete web based central purchasing system, that will ensure control of expenditure, give real time management information and allows you to audit key areas of spend within your business

This web purchasing management tool puts you in total control of:

- **Suppliers**
- **Users**
- **Budgets**
- **Products**
- **Prices**

Note: As the system is a low cost solution many companies fund the system from suppliers contributions.

Your Business Purchasing

Redro Purchasing System is easily integrated with Sage and other back office systems.

How is all this achieved?

Redro have the expertise and resource to manage all or as much of the process that you require, to ensure that the Redro system fully meets your business requirements.

We will train users and manage the complete process, helping you gain greater control of your company purchasing.

Central Purchasing System

Redro centralises and controls all company e-procurement

A specifically designed web based procurement tool, that provides efficient cost control with multiple supplier purchasing and consolidation of selected. suppliers and products on one easy to use system.

Supplier. Management

A comprehensive management information platform, that provides companies with reports on spend levels and patterns, so that they able to negotiate with suppliers on pricing.

Partnership in Purchasing

A fully managed service that will work with your company to ensure you and your suppliers are guided through the whole process.

Integrates with most finance and back office systems

In most industries, it is essential that the 'back office' costs are controlled and minimized. Redro empowers its clients to control and manage their suppliers, products and profit margins, with detailed stock levels, product ordering and company spend.

Reduce Cost manage Expenditure

Our existing clients are able to spend time focusing on the revenue generating parts of their business. Results from LA fitness and UnumProvident have shown significant improvements in efficiency, control in communications and cost savings. This is what Redro can achieve for your business.
